1. Agreed with Ting Sheldon that [ ] could serve on the "Beach Committee" which is now chaired by Captain Aurand, the President's Naval Aide, and has to do primarily with civil defense and emergency planning. Notified [ ] to have [ ] get in touch with Ting. Our understanding is that [ ] will sit on this Committee as the Agency's representative and that he will get in touch with Ting if something comes up which has intelligence implications.

3. I asked Shef to submit to me a memorandum on his conversation with Mr. Phillips of the General Services Administration concerning guard service and emphasized that we would have to consult with the Director before agreeing to allow GSA to continue this service.

4. I told Shef that I thought that some of the security restrictions being imposed in connection with the new building were excessive and that I would like to have him make a careful analysis to make sure that he was not imposing conditions which were absolutely essential and which would cost a lot of money.

25X1A

6. Shef concurred in unclassified briefings being given for the wives of JOT's.
